

Before  
11 Year Old Scar

2 Weeks After  
(7 Sessions)

### SCAR TISSUE

I wanted to share with you the photos of my horses leg from an injury that he got when he was 7 months old- he is now 11 years old. Over a period of 2 weeks, I used the light 7 times. The after photo looks amazing.

### WOUND HEALING

June 27, 2011, my young colt walked across a fence that was unknowingly down. As he followed the fence line back towards the barn, the distance between his mother became greater and greater. Someone saw him next to the road and tried to shoo him back to where he got out. He freaked out and flipped over my neighbor's fence. I used the Photonic Red Light right away. I was so impressed how it reduced the swelling to almost non-existence. He healed nicely and never needed antibiotics.

- Teresa Whitaker

## TESTIMONIALS

Before

After 1 Session

### TMJ, TEETH, HYOID RELEASE

When a horses' TMJ is tight or the hyoid is off center, it affects the range of motion in the mouth, neck, shoulder, and back. In a study conducted by Photonic Health, LLC it was discovered that the TMJ can be released and the hyoid can be re-centered using red light therapy on specific points.

When a horse has a relaxed TMJ and centered hyoid, range-of-motion in their mouth improves, which allows for the dentist to balance the mouth more accurately, which has a positive effect on the horses' nervous system. The before picture to the left shows a horse with a severe overjet. The improvement was achieved with one Photonic Red Light session.

## WHAT IS IT?

Photonic Health Cold Laser Therapy is a new way to get rid of your pet's pain.

**No drugs. No Pills. No side effects. 100% Safe.**

***In the convenience of your own home.***

Photonic Health Cold Laser kits are for open-minded pet owners who don't like to see their pets in pain and want to help them recover faster. We provide an at-home solution for pet owners who suffer from:

- Acute injuries
- Chronic Arthritis
- Muscle cramps & spasms
- Tendon injuries

Photonic Red Light Therapy reduces recovery time

which reduces the overall cost of treatment, especially in cases of long term, chronic, hard to heal wounds and it brings fast relief to your pet.

The Photonic Health Cold Laser device uses advanced red light technology that works fast, is safe for anyone to use, and is portable, take it with you everywhere!

In a nutshell, it's an easy-to-use therapy system, you, the pet owner, can do yourself. We provide you all the tools you need to get started from the reference charts, to a introduction DVD, and of course, the Cold Laser device.

## HOW IT WORKS

Cold Laser Therapy works based on 4 principles:

1. Photobiomodulation (accelerates cellular recovery time by 60-80%)
2. Muscle/Fascia Relaxation/Repair (stimulates collagen production)
3. Anti-Viral
4. Bioenergetics (Noninvasive Acupuncture)

The Photonic Health Cold Laser emits red light

within a very specific therapeutic range. When cells are healthy, they vibrate at an optimum level. When a

cell is damaged or diseased, the vibration level is decreased. The application of the Photonic Health Cold Laser mimics the vibration level of a healthy cell. It's similar to putting jumper cables on a dead battery in a car.

When the light is applied to a damaged cell, it immediately stimulates the mitochondria in the cell, which triggers an increase in ATP (Adenosine Triphosphate) levels. This causes a chain reaction in the body, which increases protein synthesis, releases endorphins and serotonin into the body (and also encourages collagen production).

When pain is eliminated in the body, it allows the body to heal itself (bio-stimulation). This is called photobiomodulation.

## WHAT IT WORKS ON

The Photonic Cold Laser is **100% safe** and easy to use. It works on soft tissue issues, which is 90% of most pets problems. In addition to being effective on horses, the Photonic Red Light is great for cats and dogs (we've even had folks use it on their guinea pigs, parrots, and iguanas!) With regular applications, the Photonic Health Cold Laser kit can help with the following:

- Acute Injuries
- Arthritis
- Colic
- Constipation
- Diarrhea
- Edema
- Tendon/Ligament issues
- Hunters Bump
- Muscle Soreness
- Shock
- Nervousness
- Open Wounds
- Cough/Cold
- Eastern Encephalitis Immune System Disorders
- West Nile Virus
- Laminitis
- Stifle Issues
- Swollen Sheath
- And more...It's almost easier for us to tell you what it doesn't work on!

**Immediately After**

## WHAT SETS US APART

Our lights are made to be indestructible! The unit is crush-proof up to 2,500 lbs and is waterproof up to 100 feet. Yes, you can use your light on your pet dolphin! Here are some other aspects of our light that set us apart:

- Durability
- Reliability
- Safety
- Ease-of-use
- 100% satisfaction guarantee
- 2 year warranty

Our product is designed with safety and ease of use in mind. Our light does not produce heat. Unlike more traditional lasers, it will not burn you or do

any damage. We've even had folks fall asleep with it on and 8 hours later wake up feeling great!

We use the best quality materials on the market today. Our bulbs are 100,000 hour bulbs. They will not burn out. We are so confident on the quality

of the construction of our unit, that we provide 100% warranty for the first 2 years you own your light. If anything malfunctions, simply return it for a replacement.

We stand behind our product 100% and we guarantee it. If you are not satisfied with your purchase, just return it in satisfactory condition within 90 days and we will refund you 100% of your money.

**Tough enough for the trail...  
...safe enough for a baby!**
